COIL STEEL PROCESSING LAUNCHING NEW RED BUD INDUSTRIES .625” CUT-TO-LENGTH LINE WITH STRETCHER LEVELER

Toledo, Ohio – Coil Steel Processing (“CSP”) is excited to announce the launch of its new 0.625” (16 mm) x 72” (1829 mm) High Strength, Heavy Gage Cut-To-Length Line w/Stretchers Leveler from Red Bud Industries that is expected to be operating in the fourth quarter of 2020.

The new line has the capabilities to stretch high strength steel up to .500” (12.7 mm) x 72” (1,829 mm) and can handle coils up to 80,000 lbs (36,000kg). The line consists of a Coil Stage & Load System, Dual Cone Uncoiler, Heavy Gage Peeler/Breaker, Precision Pop Top Straightener, Rotating Brush Dust Collector System, Thread System, 40’ (12,000 mm) Stretcher Leveler, Servo Roll Feed, Variable Rake Shear, and a Heavy Gage Drop Stacker with 60,000 lb. (27,215 kg) capacity.

CSP is a service center located in Northwest Ohio specializing in cut-to-length steel processing. With over 100,000 square feet of indoor storage, CSP has the capacity to inventory up to 50,000 tons of steel coils and sheets. CSP prides itself on providing the highest quality services and is equipped and staffed to meet flexible or aggressive timelines, even for high volume jobs. Operating exclusively as a toll processor, CSP’s customers are assured the Company will not be in direct competition!
